## **Chlormet enters into LOI to lease Washington State building**

Vancouver, British Columbia (November 20, 2014) – Chlormet Technologies Inc. (CSE: PUF) (“Chlormet” or “the Company”) is pleased to announce that its Washington State subsidiary, PacCan Industries LLC, has signed Letter of Intent (“LOI”) with a private Washington State licensee to lease up to 10,000 square feet of I-502 compliant space from PacCan at \$15 per square foot per month.

Occupancy is anticipated to be March 1, 2015 but could be earlier subject to PacCan closing escrow on the property (see news release dated November 4, 2014) and completing certain building and property improvements.

“We continue to execute on our business model,” stated Yari Nieken, interim president of Chlormet Technologies. “This is an important step in moving the Company towards revenue generation.”

### **About Chlormet Technologies**

Chlormet Technologies Inc. is moving into the Medical Marijuana sector by purchasing a 100% interest in AAA Heidelberg, a private Ontario company that is in the process of applying for a MMPR license. Although the Company cannot guarantee nor estimate the timing for the issuance of a license to AAA Heidelberg, it is Chlormet’s goal to become the next publicly traded Canadian company to be granted a new medical marijuana production license.

With the purchase of land in Whatcom County (see news release dated November 4, 2014) Chlormet intends to become involved in the legal marijuana industry in Washington State by providing building, equipment and non-grow related services to licensed growers.
